Cell: 619-279-8858

Authorized to work in the US for any employer (Permanent resident)

Summary of qualifications

I'm a front-end web developer with the passion to become a full stack developer. I am seeking a junior position to build more industry experience and contribute to the success of your company.

Technical Skills

- JavaScript / ES6
- HTML5
- CSS3 / SASS / LESS / Stylus
- ReactJS
- jQuery / AJAX
- XML / XHTML
- Node.js
- PUG
- Webpack / Babel
- Firebase
- NPM
- Rest API
- Git / Github
- Adobe Photoshop
- Axure / Figma

Project Experience

1. Portfolio website

http://berezkin.tk/

My portfolio website. Used all my current web development skills and knowledge. In this project, I utilized PUG, SASS, Babel, and NPM as well as Webpack 4 to bundle all this stuff together. It was awesome experience. Feel free to check it.

2. Smart-food

http://smart-food.tk/

Food delivery application. This app allows customers to subscribe to one of the delivery plans. Creating this website, I used flexible layouts and CSS queries for making responsive web design, preprocessor SASS and animation effects that make the user experience more convenient and memorable.

3. The Budget App Project

https://alexberezkin.github.io/The-Budget-App-Project/

Budget control app that helps to track incomes and expenses, and calculate the monthly balance. Working on this project I got a better understanding of MVC architecture principles, JavaScript ES6 Syntax, prototypal inheritance, first class functions, closures, etc.

4. Pizza Order Form

https://alexberezkin.github.io/Final_JavaScript/

This is a three steps form that has next and previous buttons. In the first step the user inputs a delivery location, the next step he selects ingredients of pizza and price is calculated automatically, and the last step is payment information. In this project I got experience with JavaScript functions, manipulating with DOM, event handling, Regular Expressions for validation of user's inputs and credit card number. I used Bootstrap 4 for making responsive web design.

5. Pig game

https://alexberezkin.github.io/Pig-game/

Just a fun Pig game that was built with pure JavaScript. Try to play, it's fun!

6. Sedona website

http://sedona.ml/

Responsive website (in the Russian language). Utilized HTML5, CSS3, jQuery.

Education

Cherepovets State University
Master's degree in Metallurgical Engineering

San Diego Community College
Front-End Web Developer Certificate Program, 2018
